The "JBLM Traffic" Myth

This survey highlighted an ongoing citizen belief that JBLM is the primary cause of the traffic congestion on I-5 in Pierce and Thurston Counties.

The Facts: I-5 has not been widened through JBLM since 1975, and is inadequate to meet today's demand. Between 1970 and 2010, the population of Washington State increased 97 percent, Pierce County grew by 95 percent, and Thurston County grew by 228 percent.

Population Growth 2000-2010:

- Military on-base population increase: **4,611**
- Military off-base pop. increase estimate: **10,759**
- Civilian Pierce and Thurston pop. increase: **128,577**

Population growth in Pierce and Thurston counties is projected to continue at a similar pace through 2040. SSMCP, along with regional partners, is working to improve Transportation in the region.

Over \$500 million in I-5 improvements are currently underway

SSMCP 2015 Community Survey

Joint Base Lewis McChord & the South Sound:

Joint Base Lewis McChord (JBLM) is an over 86,000 acre military installation in the South Puget Sound, nestled among two counties and 17 cities and towns, and bisected by Interstate 5. JBLM is the third largest employer in the state of Washington, and an economic driver for the state.

SSMCP: The South Sound Military & Communities Partnership, a regional partnership of governments and organizations in Pierce and Thurston Counties, works to improve outside knowledge of the military's direct and indirect impact on the region and the State, as well as increase coordination between military and civilian counterparts.

2015 Community and Business Survey: In previous years, SSMCP conducted Needs & Preferences surveys of service members on JBLM-over 70% of whom live off-base. In 2015, SSMCP asked community members and businesses about their perceptions, knowledge, and interaction with the military in the South Sound. The survey was conducted by **Elway Research, Inc.**

Yelm: Of the respondents to SSMCP's 2015 survey covering Pierce and Thurston Counties, **2.6%** identified as Yelm residents. This subset of data is not statistically valid. Percentages may be rounded. For full survey, visit ssmcp.org.

These results provide a snap-shot of community relationships with JBLM.
