Outbreaks in Pierce County

We currently have 37 outbreaks at schools and businesses.

Outbreaks:

- Force staff to miss work.
- Slow production.
- Force businesses and schools to close.

You can stop outbreaks with safe practices:

- Maintain physical distancing.
- Wear face coverings.
- Get the COVID-19 vaccine.

COVID-19 vaccines are safe and effective

Vaccines benefit you and your staff:

- Provide high level of protection against COVID-19.

- Reduce sick days and prevent loss of productivity.

- Improve morale and safety.

Be a trusted messenger

- You can help your staff get vaccinated.

- You know your staff. They listen to you.
  - Tell them in your own way how protecting everyone in your company and their households is important to the business.
    - Everyone staying healthy is key to doing what you do.
  - Let them know it's important to you.
  - Share if you and your household are vaccinated.

We're here to help you

- Businesses help decrease case rates when they support staff vaccinations and ensure people follow masking requirements and other steps to reduce the spread of COVID-19.

- Thank you for what you do every day. Your work helps us continue to respond to this pandemic. We couldn't do our job without you.
