Youth for Christ hosted a successful program in December that was well attended by local youth. This model, a mix of speakers, fun activities, information vendors, food and prizes will be used. A Saturday date and location will be confirmed later this month. CPSD will not be able to provide transportation as was planned in 2020. Other community partners are needed to support the

BOARD MEMBER UPDATES

Michele announced her retirement as Chancellor of Pierce College in December. As an original member of the Lakewood's Promise Board, she was thanked for her many years of service to the community.

Elise shared that her exchange student, who was an international student at Pierce College, is graduating from university with a wonderful job opportunity. She was grateful for the excellent support Pierce College provided.

Kerri shared Communities in Schools is continuing to be hit hard by Covid-19 but supporting 180 students who are receiving one-on-one support for basic needs and social learning. She announced Youth Development Advocacy Week February 8-12 and will highlight Lakewood youth, emphasize youth mental health services and push for acts of kindness. She was happy to announce the CIS national office received over \$133 million donation and hopes that some of the funds will be provided to the Lakewood CIS program.

Ron Banner provided an update on the diversity work they are doing in CPSD and that it is not just a policy in a plan, its work that is being done at all levels throughout the organization every day.

Elise shared that the library is open and although they won't be providing direct programs this summer, they want to support the community and will take the library programs out to community programs and events – like day camps. SummerFEST, etc. She mentioned a shared community calendar would be helpful for planning. She is also working on a joint summer staff training program that could provide support for all our partners (B&G club, YMCA, city day camps, CIS summer leadership program)

Megan shared the demand at the hospital is increasing again and the hospital is at over capacity quite often. They are looking at turning places like the cafeteria into ER and treatment rooms, however, not all spaces have the necessary utilities / data ports to support operations. It's all hands on deck all the time to help with the demands of attending to Covid-19 patients.

ADJOURN

Ellie Wilson adjourned the meeting at 8:33 am.
