 - a. That unique circumstances or conditions exist that are applicable to the land or buildings for which a variance is sought. Said circumstances or conditions are peculiar to such land or buildings and do not apply generally to the land or buildings in the area. The Hearing Examiner may consider legal, nonconforming aspects of existing structures for the purpose of this finding.
 - b. That proof exists of undue hardship if the variance is not granted. It is not sufficient proof of hardship to show that a greater profit would result if a variance were granted; nor shall loss of value be a valid reason to grant a variance. Furthermore, the hardship cannot be self-created, nor can it be created by actions of a property owner or a previous property owner who purchases property with or without the knowledge of restrictions present. The hardship must result from the strict application of this title; and be suffered directly by the property in question. Evidence of a variance granted under similar circumstances shall not be considered as a solely sufficient cause to grant hardship relief.
 - c. That the granting of the variance shall be consistent with the comprehensive plan and in agreement with the general purpose and intent of the regulations imposed by this title.
 - d. That the granting of the variance shall neither be injurious to the neighborhood or community, nor otherwise detrimental to the public welfare.
 - e. That the granting of the variance will not confer upon the applicant any special privilege that is denied by this title to other lands, structures, or buildings in the area.
 - f. That the granting of the variance will not permit the establishment of any development or use which is not permitted by the title.
- E. One (1) copy of the Site Plan in accordance with Community Development Department Handout #4.
- F. One (1) copy of architectural plans illustrating all building elevations and floor plans. Plans must be drawn to scale.
