RECOMMENDATION: It is recommended that the City Council adopt this Ordinance amending the City's 2025/2026 Biennial Budget.

DISCUSSION: The Revised Code of Washington (RCW) Chapter 35A.34 stipulates that a public hearing be held in connection with the modification process. Following the RCW guidelines, the City held a public hearing on the 2025 Carry Forward Budget Adjustment ordinance on May 5, 2025. The proposed budget adjustment makes the following types of modifications: revise the beginning balance by adjusting the estimated amount to reflect the 2024 ending fund balance; incorporate items previously approved by Council; appropriate projects funded by grants and contributions; continue capital projects; and new allocations.

ALTERNATIVE(S): The City Council may approve the budget ordinance with modifications.

FISCAL IMPACT: The proposed budget adjustment for all funds:

Year 2025:

- Increases beginning fund balance by \$25.88M, resulting in a revised estimate of \$55.44M.
- Increases revenues by \$36.41M, resulting in a revised estimate of \$128.67M.
- Increases expenditures by \$63.32, resulting in a revised estimate of \$156.36M.
- Increases ending fund balance by \$0.61M, resulting in a revised estimate of \$27.74M.

- Decreases revenues by \$3.96M, resulting in a revised estimate of \$98.89M.
- Decreases expenditures by \$3.08M, resulting in a revised estimate of \$98.13M.

GENERAL FUND ENDING FUND BALANCE

In support of the City's financial integrity, the City Council originally adopted on September 15, 2014, a set of financial policies including fund balance reserves totaling 12% of General/Street O&M Funds operating revenues as follows:

- 2% General Fund Contingency Reserves: The purpose of this reserve is to accommodate unexpected operational changes, legislative impacts, or other economic events affecting the City's operations which could not have been reasonably anticipated at the time the original budget was prepared.
- 5% General Fund Ending Fund Balance Reserves: The purpose of this reserve is to provide financial stability, cash flow for operations and the assurance that the City will be able to respond to revenue shortfalls with fiscal strength.
- 5% Strategic Reserves: The purpose of this reserve is to provide some fiscal means for the City to respond to potential adversities such as public emergencies, natural disasters or similar major, unanticipated events.

PPW – Tax Increment Financing Strategy, Continuation/1-Time

Carry forward \$19,339 for consultant services to conduct a Tax Increment Financing (TIF) analysis and to provide an implementation plan within the Downtown Subarea.: The Downtown Planned Action Ordinance, adopted October 2018, requires upwards of \$30 million in infrastructure improvements plus a downtown park. The area is a Regional Center, as designated by Puget Sound Regional Council, calling for a significant increase in commercial and residential development. The following thresholds of new land uses are contemplated by the Downtown Planned Action: By 2035, to support 2,257 net residential units, and to support 7,369 net jobs. At the time of subarea adoption there were 419 dwelling units, and approximately 5,000 jobs. The TIF for Jobs bill was signed by Governor Jay Inslee in May of 2021. TIF is a powerful public-private partnership tool that allows local governments to encourage private development in targeted areas by financing public infrastructure and improvements with additional property taxes from increased property values resulting from that public investment and the ensuing, related private investment. A local government may create increment areas and bond against future increases in taxes anticipated due to new development. An established TIF increment area will help the City of Lakewood to fund infrastructure within the Downtown. TIF increment areas require highly technical analysis, carefully planned implementation, and collaboration with private development in order to be successful. Timing is critical in creating increment areas where we know development will occur.

PPW - Replace School Zone Lights, Continuation/1-Time

Carry forward \$103,951 for the purchase and installation of new school zone lights and associated materials (poles, boxes, etc.)

The City owns and operates 34 school zone lights. These lights are reaching their service life and are requiring expensive and time-consuming repairs. The lights require a staff member to access via ladder to program and an outside electrical services provider to repair. Replacing all 34 units with modern systems serviced via Bluetooth connectivity from the ground or cloud-based services will provide greater safety for staff, little reliance on outside services to repair for a period of time, and enhanced responsiveness to the School District's changing schedules and needs.

PPW - Replace Traffic Signal Controllers, Continuation/1-Time

Carry forward \$589,362 for the replacement of traffic control signals. The City uses 63 signal controllers of which 60 are at various stages in their life cycle. Three of the controllers were replaced recently with the same controllers that Pierce County uses and are working successfully as stand-alone units. With the shift to Pierce County maintenance on our traffic signal systems, it is recommended that all controllers be replaced with the same units the County utilizes for their systems. It is not feasible to operate two different controller systems, and a number of existing controllers are at the end of their life. The City's controllers are not used by any other jurisdiction in Pierce County, which requires additional training, parts inventory and decreases responsiveness by the County's staff.

PK - Homeless Camp Clean Up, Continuation/1-Time

Carry forward \$31,346 for homeless camp clean up including DOE Work Crew. The City has contracted services for the Department of Ecology work crew program. This program has provided support in local parks, supplemental capital improvements and work programs.

This annual replacement program will enable the City to replace picnic tables, drinking fountains, benches, damaged playground elements and other site amenities as they wear out, are vandalized or need replacement. Besides wood chips, mats and other surfacing materials are purchased to support areas under swings, slides and entry ramps. The \$10,000 per year allows for purchases of approximately 200 cubic yards each year to update all city parks. CW - Computer Replacement, Continuation/1-Time

Carry forward \$35,000 for computer replacement. Computer desktop, laptop & mobile device replacement is a necessity as the aging life of computers and mobile devices will drive replacements. Older computers are unlikely to support the newer generation operating systems in the future. Whether by hardware failure or software obsolescence the city will need to replace computers and mobile devices to continue to function and provide services to the general public. The current replacement cycle for existing systems is 4 years.

CW - Microsoft 365, Continuation/1-Time

Carry forward \$10,000 to continue implementation of Microsoft 365, SharePoint and Microsoft Teams, including customization and training. This project is part of the City's strategic plan to migrate applications and data to secure cloud. Microsoft 365 is a turnkey suite of integrated collaboration and productivity applications designed to be deployed all at once to save time and resources. Businesses can use Microsoft 365 to deploy IT infrastructure that incorporates desktop and mobile devices, and the security and authentication systems required to keep data safe in a mobile workforce environment. Microsoft 365 combines features and toolsets from the Windows operating system, the Office 365 productivity suite and the Enterprise Mobility and Security package, which establishes authentication and security protocols for employees and systems to protect data and infiltration by outside influences.

CW – Zoom Conference, New/Ongoing

Add \$4,500 for Zoom licenses. The City hoped to replace all Zoom conferencing licenses with MS Teams, however, certain meetings such as City Council, committee meetings, and court sessions require Zoom to fully function. This funding restores the cost of zoom licenses for these types of meeting.

Add \$8,000 for BluePeak Skills Manager for the Police Department. This application tracks and manages police officer training. The increased cost is for migration of software from local servers to the cloud with added functionalities and benefits.

PD – Cellebrite Digital Forensic, New/Ongoing

Add \$14,000 for Cellebrite Digital Forensic for the Police Department due to increase in number of licenses.

PD – Axon License & Storage, New/Ongoing

Add \$40,000 for Axon License and Storage for the Police Department. The additional costs are related to migration and hosting of COBAN (for in-car/body cameras) and DigitalOnQ (for managing digital evidence) records into Axon cloud and additional licenses.

PD – CradlePoint Annual Maintenance, New/Ongoing

Add \$8,500 for CradlePoint Annual Maintenance for the Police Department. The increase is due to upgrading cellular network from 4G to 5G.

PPW – AutoCad Annual License, Housekeeping/Ongoing

Add \$17,500 for AutoCad Annual License for Planning and Public Works. This cost has been budgeted in previous years but was inadvertently left out of the 2025/2026 budget. The City has been using AutoCAD software for plan reviews and engineering drawings.

Add \$11,600 in 2025 and \$50,710 for Washington Cities Insurance Authority assessment resulting in revised estimates of \$3,269,977 in 2025 and \$3,797,843 in 2026.
